## Statement of intent

Nunthorpe Primary Academy understands that using online services is an important aspect of raising educational standards, promoting pupil achievement and enhancing teaching and learning.

The use of online services is embedded throughout the school; therefore, there are a number of controls in place to ensure the safety of pupils and staff.

The breadth of issues classified within online safety is considerable, but they can be categorised into three areas of risk:

- **Content:** Being exposed to illegal, inappropriate or harmful material, e.g. pornography, fake news, and racist or radical and extremist views.
- **Contact:** Being subjected to harmful online interaction with other users, e.g. commercial advertising and adults posing as children or young adults.
- **Conduct:** Personal online behaviour that increases the likelihood of, or causes, harm, e.g. sending and receiving explicit messages, and cyberbullying.

The measures implemented to protect pupils and staff revolve around these areas of risk. Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

### 3. The curriculum

- 3.1. Online safety is embedded throughout the curriculum; however, it is particularly addressed in the following subjects:
  - RSE
  - Health education
  - PSHE
  - Computing
- 3.2. The curriculum and the school's approach to online safety is developed in line with the UK Council for Child Internet Safety's 'Education for a Connected World' framework and the DfE's 'Teaching online safety in school guidance.
- 3.3. Pupils are taught the underpinning knowledge and behaviours that can help them to navigate the online world safely and confidently regardless of the device, platform or app they are using.
- 3.4. Online safety teaching is always appropriate to pupils' ages and developmental stages.
- 3.5. The underpinning knowledge and behaviours pupils learn through the curriculum include the following:
  - How to evaluate what they see online
  - How to recognise techniques used for persuasion
  - Acceptable and unacceptable online behaviour
  - How to identify online risks
  - How and when to seek support
- 3.6. The online risks pupils may face online are always considered when developing the curriculum. The risks that are considered and how they are covered in the curriculum can be found in [Appendix 1](#) of this policy.
- 3.7. The DSL & DDSs are involved with the development of the school's online safety curriculum.
- 3.8. The school recognises that, while any pupil can be vulnerable online, there are some pupils who may be more susceptible to online harm or have less support from family and friends in staying safe online, e.g. pupils with SEND and LAC. Relevant members of staff, e.g. the SENCO and designated teacher for LAC, work together to ensure the curriculum is tailored so these pupils receive the information and support they need.

- 3.9. Class teachers review external resources prior to using them for the online safety curriculum, to ensure they are appropriate for the cohort of pupils. When reviewing these resources, the following questions are asked:
- Where does this organisation get their information from?
  - What is their evidence base?
  - Have they been externally quality assured?
  - What is their background?
  - Are they age appropriate for pupils?
  - Are they appropriate for pupils' developmental stage?
- 3.10. External visitors may be invited into school to help with the delivery of certain aspects of the online safety curriculum. The headteacher and DDSLs decide when it is appropriate to invite external groups into school and ensure the visitors selected are appropriate.
- 3.11. Before conducting a lesson or activity on online safety, the class teacher and DSL consider the topic that is being covered and the potential that pupils in the class have suffered or may be suffering from online abuse or harm in this way. The DSL advises the staff member on how to best support any pupil who may be especially impacted by a lesson or activity.
- 3.12. Lessons and activities are planned carefully so they do not draw attention to a pupil who is being or has been abused or harmed online, to avoid publicising the abuse.
- 3.13. During an online safety lesson or activity, the class teacher ensures a safe environment is maintained in which pupils feel comfortable to say what they feel and are not worried about getting into trouble or being judged.
- 3.14. If a staff member is concerned about anything pupils raise during online safety lessons and activities, they will make a report in line with sections [15](#) and [16](#) of this policy.
- 3.15. If a pupil makes a disclosure to a member of staff regarding online abuse following a lesson or activity, the staff member will follow the reporting procedure outlined in sections [15](#) and [16](#) of this policy.

## **4. Staff training**

- 4.2. Online safety training for staff is updated annually and is delivered in line with advice from Safeguarding First.

- 4.3. The DSL & DDSLs undergo training to provide them with the knowledge and skills they need to carry out their role, this includes online safety training. This training is updated at least every two years.
- 4.4. In addition to this formal training, the DSL and any deputies receive regular online safety updates to allow them to keep up with any developments relevant to their role. In relation to online safety, these updates allow the DSL and their deputies to:
  - Understand the unique risks associated with online safety and be confident that they have the relevant knowledge and capability required to keep pupils safe while they are online at school.

- 17.5. Pupils not using devices or software as intended will be disciplined in line with the Behaviour Policy.
- 17.6. The school will risk assess the technology used for remote learning prior to use and ensure that there are no privacy issues or scope for inappropriate use.
- 17.7. The school will ensure that all school-owned equipment and technology used for remote learning has suitable anti-virus software installed, can establish secure connections, can recover lost work, and allows for audio and visual material to be recorded or downloaded, where required.
- 17.8. The school will communicate to parents in writing about any precautionary measures that need to be put in place if their child is learning remotely using their own/family-owned equipment and technology, e.g. ensuring that their internet connection is secure.
- 17.9. During the period of remote learning, the school will maintain regular contact with parents to:
- Reinforce the importance of children staying safe online.
  - Ensure parents are aware of what their children are being asked to do, e.g. sites they have been asked to use and staff they will interact with.
  - Encourage them to set age-appropriate parental controls on devices and internet filters to block malicious websites.
  - Direct parents to useful resources to help them keep their children safe online.
- 17.10. The school will not be responsible for providing access to the internet off the school premises and will not be responsible for providing online safety software, e.g. anti-virus software, on devices not owned by the school.

## **18. Monitoring and review**

- 18.1. The school recognises that the online world is constantly changing; therefore, the DSL, ICT technicians and the headteacher conduct regular light-touch reviews of this policy to evaluate its effectiveness.
- 18.2. The governing board, headteacher and DSL review this policy in full on an two-yearly basis and following any online safety incidents.
- 18.3. The next scheduled review date for this policy is June 2023.

Any changes made to this policy are communicated to all members of the school community.
