

Year 2 Maths

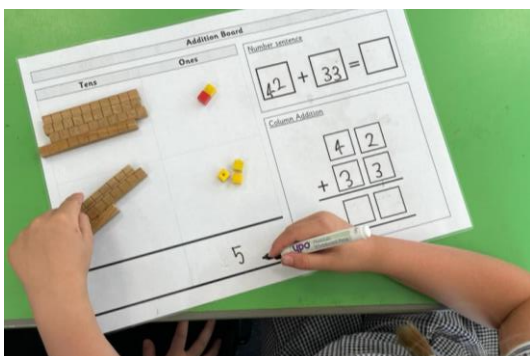

At Nunthorpe Primary we have a fun, practical and real-life approach to Mathematics that promotes an enthusiasm for learning and a resilience to challenge. The children tackle new concepts through practical activity, exploration and discussion.

Using different practical equipment to make and show numbers.

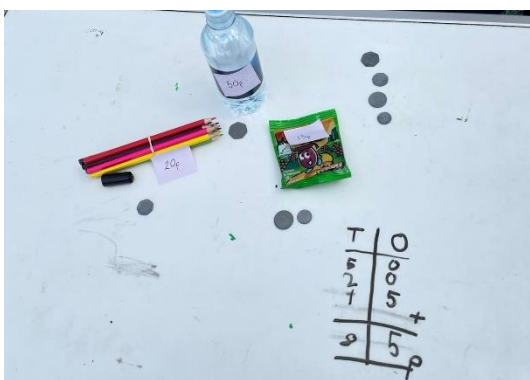

Investigating then sorting 3D shapes by different properties.

Understanding and applying column addition.

Using a number line to subtract two-digit numbers from two-digit numbers.

Year 1 created a shop and had to use their money to buy items.

Telling the time. Reading and creating analogue and digital time.
