

Year 3 Maths

At Nunthorpe Primary we have a fun, practical and real-life approach to Mathematics that promotes an enthusiasm for learning and a resilience to challenge. The children tackle new concepts through practical activity, exploration and discussion.

Adding two 3-digit numbers together using column additions

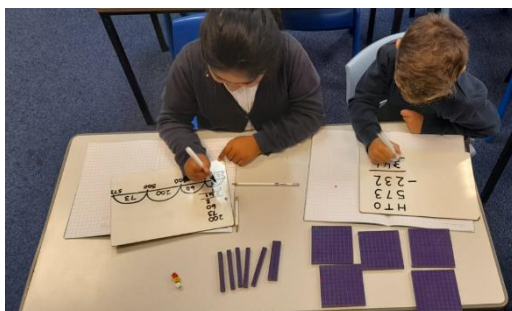

Telling the time to the nearest minute and finding time intervals

Learning about fractions, equivalent fractions, finding fractions of amounts and adding fractions together.

Recognising 3D shapes and their properties. Solving shape problems.

Subtraction using counting on and the column method

Statistics and data. Estimate and measure. Compare and draw graphs. Interpret data.
