

Year 4 Maths

At Nunthorpe Primary we have a fun, practical and real-life approach to Mathematics that promotes an enthusiasm for learning and a resilience to challenge. The children tackle new concepts through practical activity, exploration and discussion.

Using bar models and part-whole models to represent 3-digit numbers.

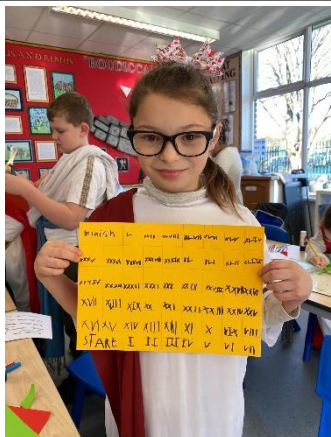

Discussing tenths as fractions and decimals as a whole class.

Using pictorial methods to add fractions with the same denominator.

Developing our understanding of units of measure and making connections between measure and number.

Creating a Roman Numeral boardgame as part of our cross-curricular learning.

Creating a human number line to support place value, including whole numbers, fractions and decimals.
