

Year 5 Maths

At Nunthorpe Primary we have a fun, practical and real-life approach to Mathematics that promotes an enthusiasm for learning and a resilience to challenge. The children tackle new concepts through practical activity, exploration and discussion.

Short multiplication practise using chalks outside.

Weighing amounts using varying scales accurately.

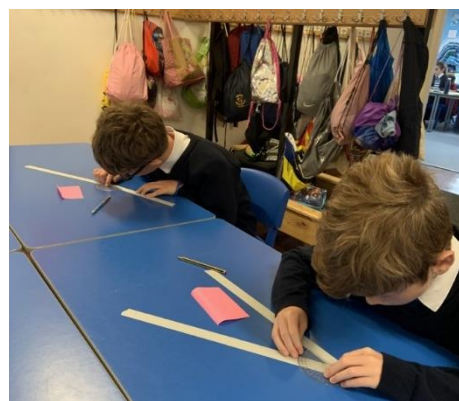

Comparing and finding the difference between negative numbers.

Drawing place value grids and using them to multiply and divide by 10, 100 and 1000.

Exploring volume.

Measuring and labelling angles.
