

Year 6 Maths

At Nunthorpe Primary we have a fun, practical and real-life approach to Mathematics that promotes an enthusiasm for learning and a resilience to challenge. The children tackle new concepts through practical activity, exploration and discussion.

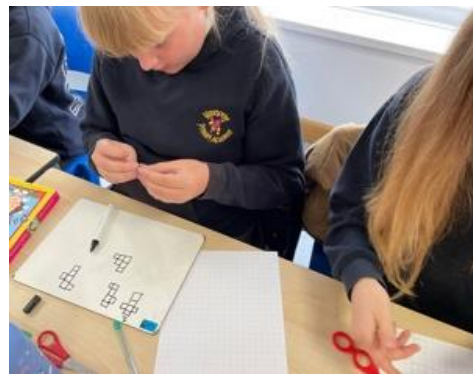

Apex problem solving- working with a partner.

Finding area of triangle and parallelogram based on knowledge of area of a rectangle.

Apex problem solving- working with a partner.

Nets challenge- making nets of a cube. Challenge is to find them all.

Back to back describing shapes using key vocabulary from the board.

Using a sliding scale to work out \times and \div by 10, 100 and 1000.
