

Home Learning – Spring Term – Nursery

Dear Parents,

Below is a guide to our remote learning provision. We recognise the difficulties that families face with more than one sibling in the house, working at home and limited IT and this is reflected in our expectations. We don't want pupils hunched in front of a laptop/device all day, so we are providing a varied programme.

- We have timetabled 2 Teams sessions starting next week; Monday and Wednesday with Miss Harrison. These can be accessed through the calendar.
- Other activities are outlined on the Nursery Home Learning Grid.
- Pupils at school will be doing exactly the same activities as those at home. Children will be revisiting, enriching and practising key skills.
- [Click here](#) to access instructions on how to log on to Teams.
- We will try to make home learning as interactive and engaging as possible. There will be several activities a day following the EYFS curriculum on the Nursery Home Learning grid and an extra whole school activity which siblings can do together. See the attached Whole School Grid below.
- If you require assistance please message your child's teacher on Teams. Teachers are in class with Keyworker children during the day but will respond when they are able.
- Teams sessions will either be pre-recorded by the teacher or linked to a live stream to share a story.
- Please share your child's work with the EYFS Team by typing @RNURHARRISON in Teams Chat.
- Work will be acknowledged by a member of the EYFS teaching staff.
- If you are experiencing any difficulties, please email me rharrison@nunthorpeprimary.org.uk or contact me on Chat.
- Also attached is a grid of physical activities to give you some ideas for keeping fit and healthy and burning off excess energy!

Keep Safe,

Team EYFS xx

Ideas for physical activities

Do a Joe Wicks workout	Complete a Just Dance	Practise kick ups	How many star jumps can you do in minute? Can you beat it?
Go for a jog	Aim to be outside for at least 30 mins a day	Have a tech-free afternoon	How many laps of your garden can you do?
Build a snowman (if possible)	Learn to do a forwards roll	Go for a bike ride	How many times can you throw and catch a ball without dropping it
Learn to use a yo-yo	Complete Miss Cornforth's alphabet challenge	Create a dance sequence to your favourite song	Create a target practise game for everyone at home

Ideas for activities
