

Home Learning – Spring Term – Year 1

Dear Parents,

Below is a guide to our remote learning provision. We recognise the difficulties that families face with more than one sibling in the house, working at home and limited IT and this is reflected in our expectations. We don't want pupils hunched in front of a laptop/device all day, so we are providing a varied programme.

- Your child is required to register with their teacher on Teams each morning by joining a video call. **Year 1's daily registration will be at 9.00am, starting on Wednesday 6th January.** The teacher will start the meeting at this time promptly; it will finish at 9.09am, to allow siblings in other year groups to register.
- Pupils should be dressed appropriately in video calls. Pupils are not to start video calls; they should wait for the teacher to start the call and then join through the calendar.
- Pupils at school will be doing exactly the same activities as those at home. There will be no new learning; we will focus on the revision of skills.
- [Click here](#) to access instructions on how to log on to Teams.
- Home learning will not always be on Teams. There will usually be 4 activities a day: English, maths, reading or phonics and one from the attached grid of the pupil's choice. If a pupil requires assistance they can message the teacher on Teams, but don't expect an immediate response as teachers are in class.
- There will not be any live lessons on Teams; they will either be pre-recorded by the teacher or you'll be sent a link to another recorded lesson.
- Pupil's should still access Spelling Frame, spellings will set on Thursday as normal.
- Work completed by pupils should then be uploaded to the pupil's file on Teams. If you can't do this then it should be emailed to the teacher or shared in Chat.
- Work will be acknowledged by a member of teaching staff.
- Your child should join a live meeting at 10.30am on Monday.
- If you are experiencing any difficulties, please email me nfollan@nunthorpeprimary.org.uk or contact me on Chat.
- Also attached is a grid of physical activities to give you some ideas

Keep Safe,

Miss Follan

Ideas for physical activities

Do a Joe Wicks workout	Complete a Just Dance	Practise kick ups	How many star jumps can you do in minute? Can you beat it?
Go for a jog	Aim to be outside for at least 30 mins a day	Have a tech-free afternoon	How many laps of your garden can you do?
Build a snowman (if possible)	Learn to do a forwards roll	Go for a bike ride	How many times can you throw and catch a ball without dropping it
Learn to use a yo-yo	Complete Miss Cornforth's alphabet challenge	Create a dance sequence to your favourite song	Create a target practise game for everyone at home

Ideas for activities
